4. With regard to the AILLION operation there are no developments to report. The case was discussed with [] on March 5th in light of SGAW-4129, 26 February 1954 and the fresh information on AILLION's whereabouts reported in SFB-140, 16 February 1954. We will continue monthly reports on this operation, and in the meantime are awaiting Headquarters' instructions on the AIQUAD letter.

5. [] prepared a final report on the Nikolla brothers, but this was not released due to a subsequent development. For your information and to close the file on the case for the present, please be advised that on March 13th OBOPUS support to the brothers ended. Arrangements were made to matriculate these boys at the Ort Trade School in Athens, where their support is underwritten by U.S.E.P. Shortly after they entered this school they were interviewed by Identity (1), who stated he would take a direct interest in their emigration. As our operational interest no longer exists, no PRQ's will be filed. [] has been asked to review this case with [] in Headquarters. In closing please note the correct spelling of "Nikolla." In some instances various reports used a single rather than a double "l".

6. During part of the period under review OBOPUS was fortunate in having [] in Athens on a TDY basis. She made an important contribution to our knowledge of Albanian documentation and obtained some intelligence of value to KURIOT.

7. [] was also in Athens in early March and we believe his stay here was most profitable. A report on his visit has been submitted.

8. The important intelligence development of the month was confirmation of existence of new basic documentation in Albania. [] 6595, 11 March 1954, gives first definite confirmation.

9. The arrival of Feta Kuci on February 28 1954 in Ioannina is the important development in the Mehmet Kuci CE case. A summary dispatch on our handling of Mehmet Kuci was completed in late March and is in the process of being released.
